

Ponderosa Family Physicians
Fifteen Most Commonly Provided Services

In compliance with the Transparency in Health Care Prices Act in Colorado, we are posting our 15 most commonly provided services, CPT code, description and charge/price for that service. Our health care price for any given health care service is an **estimate** and the actual charges for our health care services are dependent on the circumstances and patient needs at the time the service is rendered.

If you are covered by health insurance, you are strongly encouraged to consult with your health insurer to determine accurate information about your financial responsibility for a particular health care service provided by a health care provider at this office. If you are not covered by health insurance, our billing office is readily available at 303-690-4891 to discuss payment options prior to receiving health care services from a health care provider at this office since posted health care prices may not reflect the actual amount of your financial responsibility. Again, any charges discussed over the phone are only an **estimate** since actual charges for our services are dependent upon the circumstances and patient needs at the time the services are rendered.
